

Papa Joe

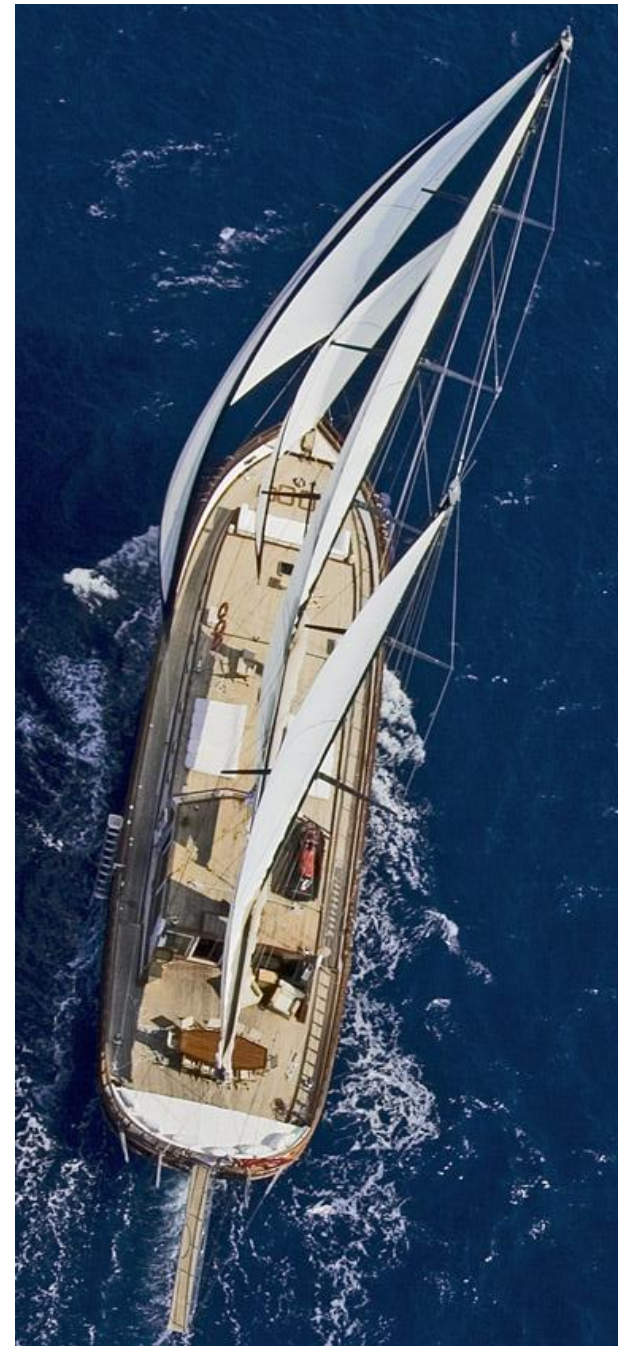

Papa Joe was launched in 2007 in Bodrum, jewel of the Turkish Aegean Sea and renowned worldwide for its boatyards and for its long boat-building tradition. Our dream and purpose was to design and build a special yacht, which would have a style and a personality of its own, would be loved by our guests and cherished by the crew.

It took one year to build it: it was an incredible experience to see it coming to life, to see how the expertise and imagination of the Naval Architect shaped and created a beautiful yacht exuding luxury and elegance. Papa Joe is a unique vessel, combining the classical lines of a traditional gulet with modern, contemporary interior design.

Our guests love Papa Joe for its beauty and comfort, for its style and spacious facilities, for the feeling of well being it provides. Yacht specialists admire it for the quality of its construction, the sail design and its technical characteristics.

We are proud to own Papa Joe and take pride in maintaining it to the highest standards and in constantly improving its comfort and level of service.

We invite you to be part of the exclusive Papa Joe experience ...
